Alexgen Nucleic Acid Extraction Kits

Cat No.	Product Name	Pack Size
AG-VR50	Alexgen Viral RNA Extraction Kit Spin column based viral RNA Extraction kit from nasopharyngeal swab	50/100 Rxns
AG-BD50	Alexgen Blood gDNA Extraction Kit Spin column based gDNA extraction kit from animal/human blood,Cultured animal cells, Amniotic fluid and Chorionic villus.	50/100 Rxns
AG-AT50	Alexgen Animal gDNA Extraction Kit Spin column based gDNA extraction kit from fresh/stored animal tissue.	50/100 Rxns
AG-FT50	Alexgen FFPE DNA Extraction Kit Isolation of genomic DNA from Formalin Fixed Paraffin Embedded Tissue	50/100 Rxns
AG-PT50	Alexgen Plant gDNA Extraction Kit Spin column based gDNA extraction kit from fresh/stored plant tissues.Can be also used for cultured plant tissues (Callus)	50/100 Rxns
AG-ST50	Alexgen Stool DNA Extraction Kit Spin column based RNA extraction kit from bacterial cells, fungus, plant tissues, animal tissues	50/100 Rxns
AG-BC50	Alexgen Bacterial gDNA Extraction Kit Spin column based gDNA extraction kit from cultured bacterial cells	50/100 Rxns
AG-SD50	Alexgen Soil DNA Extraction Kit Spin column based DNA extraction kit from soil samples	50/100 Rxns
AG-TR50	Alexgen Total RNA Extraction Kit Spin column based RNA extraction kit from bacterial cells, fungus, plant tissues, animal tissues	50/100Rxns

ABOUT US

Alexius Biosciences is an emerging international life science company which caters to scientific community in the field of diagnostics, medical genetics and genomics research. We are committed to provide world class products to ease the research protocols. Our product portfolio including molecular biology related kits, high purity reagents, instruments, and services support advancements in the life sciences, including frontline diagnostics and clinical applications. We are committed to deliver highest quality products to the researchers, scientists and diagnostics industries to accomplish their important experimentsand assays without any hassles.

OUR MISSION

Developing best in class product range by implementing Innovative ideas into new product development. We want to utilize our expertise for targeting the need of scientific community and providing ultimate solutions. We are committed to making research efficient, simpler and faster.

OUR VISION

We want to develop as best in class product range helping scientists in the fields of Molecular biology, Genomics and Clinical genetics through range of innovative products, kits and reagents.
